INFORMED CONSENT FOR INTRAVENOUS THERAPY TREATMENT USING GLUTATHIONE

I, _____, hereby authorize the physician, Ron Mariotti, ND, to perform the following IV procedure: ***GLUTATHIONE IV*** on myself. Dr. Mariotti has verbally reviewed the following risks, benefits, contraindications and precautions with me. I have indicated my understanding of each by initialing next to each statement.

Possible benefits of Glutathione:

1) _____Can prevent or reverse alcohol induced fatty liver disease, cirrhosis, hepatitis, liver tumores.
2) _____Inhibits chemical induced carcinogensis.
3) _____Improves prognosis of stroke victims.
4) _____Useful in any condition where there is risk for oxidative damage.
5) _____Useful to possibly prevent radiation injury BEFORE radiation treatment is started.
6) _____Important chelator for lead, mercury, cadmium, and arsenic.
7) _____Important role in immune function via white blood cell production and is a potent antiviral agent.
8) _____It is possibly one of the strongest anti-cancer agents made in the body.
9) _____Glutathione levels decrease with age. Glutathione is involved in cellular differentiation and slows the aging process.

POSSIBLE RISKS OF GLUTATHIONE:

1) _____ Possible allergic response to IV infusion of glutathione.
2) _____ Theoretical interaction with Chemotherapy and/or Radiation therapy thereby decreasing effectiveness of those treatments.

CONTRAINDICATIONS:

1) _____Possible theoretical contraindication in conjunction with cancer chemotherapy and/or radiation but this is controversial.

CAUTIONS:

1) _____ Possible theoretical cautions in conjunction with cancer chemotherapy and/or radiation but this is controversial.

POSSIBLE SIDE EFFECTS:

1) _____Hexhemer reactions: body aches, nausea, and occasionally headaches, mild diarrhea and chills without fever.
2) _____Anxiety
3) _____Allergic reaction

Keep in mind that some of these (Hexhemer reactions: body aches, nausea, and occasionally headaches, mild diarrhea and chills without fever), fatigue skin eruptions flu-like symptoms, can be due to detoxification effects stimulated by Glutathione.
